MRS. MEYER IS TRUE.

Rumors That She Has Confessed Officially Denied.

Two Jurors Still Lacking in the Great Poisoning Trial,

First Witnesses.

The presence of Mrs. Dr. Meyer every day in the court of Oyer and Terminer, where her husband is on trial for poisoning, gave rise to a revival of the story that the woman with the laughing blue eyes had confessed, after all, and would Muller, alias Wimmerx, and herself, had conspired with Gustave M. A. J. Baum defraud the insurance companies out of the heavy insurance on Baum's life; administered arsenic to Baum to give him the appearance of a very sick man for the purpose of fooling a

big-eyed, frizzy-haired young woman herself.

A part of the proof offered by Prosecutor McIntyre will be that Dr. Meyer, under the names of William Reuter, Hugo Waylor, Henry Meyers and Weiner, has been twice tried for murder in Chicago, the first time on a charge of poisoning his wife, and the second on a compact of poisoning a man, each time with the poisoning a man, each time with the

charges.

Muller and his wife were this morning brought down by Jack Galleghar from the House of Detention, where they have the House of Detention, where they have boat anche

back and placed where she could not run away again.

No one could blame Carl Muller for repenting of his share in the conspiracy to poison the little creature to death, falling in love with her and eloping to save her life for himself. Mary Nelss Muller, alias Wimmers, is not a most interesting young woman. She looks like one of the soubrettes who flutter up and down Broadway during the Summer. teresting young woman. She looks like one of the soubrettes who flutter up and down Broadway during the Summer months, only she wears a long veivet cloak trimmed with fur. Her hat is a dainty thing trimmed with fur and having a green parrot wing in its front. All around her head fluffy coubrette crimps are clustered, and behind them is a bunch of the crinkly brown hair, confined close to the head by a bit of ribbon. The man who left off poisoning her to marry her looks like a young physician or lawyer, with his full beard of dark brown, close cut. The coupie sit in court directly behind the pallid-faced doctor, whom they expect to send to the electrical chair.

The woman who so strangely resembles Dr. Meyer; who says she is Mrs. Manger, and who is, by a remarkable coincidence, the person engaged by Dr. O'Sullivan to take care of Dr. Meyer, who was psainly a sick from the Mullers, and preserved her expression of imperturbability under the saze of the court spectators, for Meyer, who was plainly a sick mar yesterday, looked much better today, but he drummed listlessly with his big, bony, yellow-white hand on the lands as he answered an "Evening World," reporter:

Deputy Sheriff Murray brought Mrs.

Deputy Sheriff Murray brought Mrs.

Leyer to court late, and again she had

been met by a woman in Centre street and accompanied to court. This woman was evidently a sister of "Mrs. Manger." but she refused to disclose her identity. The two were joined in the prisoners box by "Mrs. Manger," and comparisons were made. The resemblance of the new "mysteriols woman" to Dr. Meyer was less marked than that of Mrs. Manger, but the general type was the same—large nose, big blue-gray eyes, yellow-brown hair, prominent ears, and wide jaws.

These three women, the one in the middle in the very shadow of the electrical death chair, laughed and chatted merrily in whispers as if there was no thought of danger to either of them.

John Glashelmer, carpet dealer at 3il East Sixteenth street, passed the examination of the lawyers, but Mr. Brooke didn't like him, and excluded him from the box by peremptory challenge, the twenty-fourth of the defense.

The rumor brought an immense crowd to the white court-house, for it was enticipated that the two vacant seats in the jury box would be speedily filled, and the trial actually begin to-day.

ut John F. McIntyre, the able and corscientious public prosecutor, who is conducting the case, denied the story this morning. He said Mr. Meyer was brought down from her cell in the fitness so that the witnesses might sidentify her.

Other things observed in court belied the story, too. Dr. Meyer and his wife and alleged accomplice, exchanged many signals across the court-room. The doctor manipulating his great, bulging, glittering, gray-blue eyes in a remarkable fashion in signalling to the blue-eyed, smiling woman who has kept the faith with him so completely.

Carl Muller, the alleged accomplice of the Meyer's in several insurance frauds, and who fell in love with Mary Neiss, the servant girl who, it is alleged, was being poisoned to death in Toledo, ran away with her and married her, was on Mr. McIntyre's schedule as the first witness, to be followed by the rosy-checked, big-eyed, frizzy-haired young woman herself.
